PROFESSIONAL SUMMARY

AI/ML-focused undergraduate (2023–2027) building end-to-end ML solutions in NLP, Computer Vision, and predictive analytics. Stack: Python, TensorFlow, PyTorch, AWS, Streamlit. Proven ability to deliver end-to-end solutions from preprocessing to deployment.

EDUCATION

B.Tech – Computer Science & Engineering (AI/ML), Shivalik College of Engineering, Dehradun 2023 – 2027
Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Systems, Statistics
Class XII (CBSE), Doon Yudhishtera Public School, Dehradun 2023
Class X (CBSE), Doon Yudhishtera Public School, Dehradun 2021

TECHNICAL SKILLS

Languages: Python, SQL, C++, R
Machine Learning: Scikit-learn, XGBoost, SHAP
Deep Learning & CV: TensorFlow, PyTorch, BERT, OpenCV
Data & Databases: Pandas, MySQL, MongoDB
Visualization: Power BI, DAX
Tools & Cloud: Git, AWS, Docker

PROJECTS

HandSign Translator | Python, OpenCV, MediaPipe, TensorFlow
- Built a real-time Indian Sign Language (ISL) translator using MediaPipe hand tracking and OpenCV, recognizing **26+ gestures at 94% accuracy with <100ms latency**.
- Trained a TensorFlow deep learning model that converts signs into text and speech, with multi-language support for accessibility.

Customer Churn Prediction | Random Forest, SHAP, Scikit-learn Live Demo | GitHub
- Built a Random Forest churn prediction model achieving **92% accuracy and 0.89 ROC-AUC**.
- Used SHAP and evaluation metrics to explain model decisions and identify the key factors driving customer churn.

Twitter Sentiment Analysis | BERT, HuggingFace, Streamlit, Python Live Demo | GitHub
- Fine-tuned BERT with HuggingFace on **50k tweets** for sentiment classification, reaching **89% F1**.
- Built a Streamlit dashboard to visualize sentiment trends interactively.

Sales Analytics Dashboard | Power BI, DAX, SQL Live Demo | GitHub
- Built an interactive Power BI dashboard tracking **12+ KPIs** across multi-year retail sales data.
- Wrote DAX measures for dynamic reports and cut dashboard refresh time by **35%**.

CERTIFICATIONS

Claude Code in Action – Anthropic | Certificate No: yskbibasqt63 March 2026
Verify: verify.skilljar.com/c/yskbibasqt63

ACHIEVEMENTS & ACTIVITIES

- Top 10% rank in Kaggle House Price Prediction competition.
- Built and deployed a personal data science portfolio website.
- Deployed 2+ ML apps on Streamlit/AWS with live inference.
